Possession of this court-issued photo identification badge will provide you expedited entry at a secured and controlled screening entrance to a courthouse in Riverside County. This is defined as walking through the magnetometers and being subject to a full security screening. This will include the use of x-ray machines to search all purses, bags, briefcases, boxes, and any personal effects. Where x-ray machines are not available court security will physically search these items. In locations where it is feasible, a separate line or entrance will be designated for attorneys with a valid private attorney court ID badge. In locations where attorneys must enter with the public, front of the line access will be given for expedited screening. Persons with oversized belt buckles or buckles that are not business professional will be asked to remove the belt prior to screening. If you do not present a current ID badge, you will be required to enter the building with the general public and be subject to the same full screening that members of the public are subject to pursuant to court and county policy. The Sheriff's Department has the right to determine if additional screening is needed.

Facial recognition will not be allowed for access as defined above without a proper court issued identification badge. By signing this application, you agree that you are responsible for the court issued ID badge fees and replacement if necessary due to loss or damage.

You agree the badge must be surrendered to authorized staff upon request if the holder's California State Bar license becomes deactivated.

You further agree to abide by the Court's "Weapon Screening" policy and you understand that in the absolute discretion of the Court, the provided ID badge can be revoked at any time with or without reason and your fee will not be refunded. I attest under penalty of perjury, that I am an active member in good standing with The State Bar of California.
